❖ WHAT IS A CLUSTER BOMB?

A cluster bomb, or cluster munition, consists of a container filled with lots of smaller bombs (submunitions). These containers might be dropped from aircraft or fired from the ground. Breaking open in midair, the container releases the submunitions—saturating an area the size of several football fields. Anybody within that area, be they military or civilian, is likely to be torn apart.

❖ BAN CLUSTER BOMBS

From Youen Sam En,

I lost both my eyes and arms to a cluster munition in 2004. The bombs was dropped in the seventies. I have five children.

I have a goal that my country, Cambodia, and the world be free of cluster munitions.

I want a fair life for cluster munitions survivors, cleared fields for sports and farms and a ban on the use, production, transfer and stockpiling of cluster munitions by all countries.

Please urge your government to become a party to the Convention on Cluster Munitions.

I am signing off with my foot as I have no eyes or arms. You, please sign on to the treaty with your head, heart and hand. Hopefully yours,

Youen Sam En

❖ THE CONVENTION ON CLUSTER MUNITIONS

The Convention on Cluster Munitions (2010) will hold its First Review Conference in Dubrovnik Croatia in September 7-11 2015.

It will review progress on land cleared and assistance to survivors.

It will record that 93 (hopefully 100) countries are States Parties.

It will shame countries who have used cluster munitions.

It will praise countries who have destroyed stockpiles.

It will push for progress with a renewed plan for clearance, survivor assistance and universalisation of the treaty.
