- **JRS Cambodia was 25!** Sr Ath, Phongphand Phokthavi, Br Noel Oliver sj and Sr Denise Coghlan rsm entered Cambodia to promote reconciliation, and peace before the return of the refugees from the camps in Thailand. They set up projects to make friends with people "Inside" to promote integrated development in a rural area and to educate people displaced and disabled by the effects of war and exile.
- 300 Montagnards arrived from Vietnam seeking asylum from religious and ethnic persecution. They follow people from places like Iran, Eritrea, Ethiopia, China, Sri Lanka, Rwanda, Afghanistan, Iraq, Palestine who have been seeking asylum here since 1993. Australia exported 5 refugees, originally from Iran and Myanmar via Nauru.
- A record number of guests passed through the Reflection Centre, including the Major Superiors of Asia Pacific to reflect and become aware of issues affecting Cambodia through the eyes of the poor and the lens of interfaith. Monks, women with disability, school groups, from many parts of the world came to see, judge, and act.

- Srun Sony and Sr Denise Coghlan were invited to New York and Washington to receive the JRS Accompaniment Award and to advocate with groups and government in Washington.

REFUGEES AND ASYLUM SEEKERS

The biggest group of Asylum Seekers in Cambodia in 2015 were Montagnard Christians fleeing the highlands of Vietnam. The first 13 arrivals were brought starving from the forests of north eastern Cambodia by UN agencies and were cared by JRS. They were recognized as refugees in March 2015 by the government of Cambodia.

Over the year more than 300 arrived in Phnom Penh. Some others were forced back at the border but were cared by JRS in Phnom Penh for varying lengths of time. 199 Montagnards are still in our care for rented shelter, food, education and psycho-social activities.

Interviews were conducted with all of them by JRS and some have experienced torture, prison sentences, invitations to police station and being ask to sign that they will not practice their religion (Degar Christianity).

By end of 2015, none had been registered by the government.

Chart of Number of Montagnards arrived in Cambodia by month 2015

STOP PRESS On January 20, 2016, Cambodia government promised to register and process all Montagnards.

We also cared for 100 other refugees and asylum seekers - Rohingya, Burmese, Ethiopian Vietnamese, Sri Lankan, Eritrean, Pakistani, Sudanese refugees and asylum seekers.

Education for children, housing, listening, and dialoguing with police and land-lords, assisting people to market and health services, legal briefs, and advocacy for durable solutions were some of the services we offered.

We continued to advocate for Identity Documents, a process towards citizenship, and the right to work. The only new asylum seekers recognized in 2015 were 13 Montagnards. Others wait a very long time.

We monitored the Australia deal. In total 5 people from Nauru arrived in Cambodia. One, a Burmese Muslim (not a Rohingya) returned to Myanmar. Four remain under the care of International Organization for Migration (IOM).

One big joy of the year was the resettlement in Canada of 5 Rohingya friends. We had enjoyed their rotis for years and are glad Canadians may be able to sample then.

They laughed, they cried, they had fun. For most, it was the first time to see Angkor Wat and visit the activities at the Cultural Village. Comments: "New thoughts", "Peaceful place", "There are others with problems like mine", "Encouraged", "Hopeful".

Challenges: Most survive from day to day so making a plan for the future is very difficult.
